

## Use of School Facilities

Other than for school functions and school-related events (e.g., open house, back to school night, parent conferencing, class plays and musicals, etc.), persons (including district employees) or organizations who desire to use facilities will apply for permission, and their request will be processed according to this procedure and in accordance with school district [Policy 4260](#).

### I. General Guidelines

- A. Application for use of school facilities shall be made using the process outlined in these procedures. See Section III – Classification and Scheduling for specific information.
- B. An authorized district employee or partner organization designee must be always present when a school facility is in use. This individual shall be available to unlock and lock doors, know whom to contact should there be any issues with the energy management system, provide for building security, make certain that unauthorized sections of the buildings are not accessed, ensure the safe, proper, and authorized use of district furniture and equipment, and represent the district in case of an emergency.
- C. As far as is practical, all meetings shall close in sufficient time to clear the building by the time established by the district. If the event goes beyond the time designated in the contract, additional charges shall apply. If the event or clean up extends past the scheduled use, or a group presents itself for use that is not listed, the custodian on duty shall contact the custodial supervisor on duty for approval of continued coverage or use and the applicable fee, if any, will be charged. All additional use is to be reported by the custodial supervisor to the Event Services department as soon as time permits but no later than the end of the following business day.
- D. A minimum of one (1) hour shall be charged for the rental of any facility or space. In addition, any use of facilities necessitating cleanup shall be charged a minimum of two (2) hours of custodial time. Additional time may be billed depending on the total number of spaces used and the cleanliness of the activities taking place therein. The custodian on duty will request approval from the custodial supervisor on-call for coverage requiring more than one (1) hour longer than scheduled through the scheduling system.
- E. School district owned furniture and equipment shall not be removed from district facilities for loan to any individuals, groups, or organizations other than inter-district organizations approved by the superintendent/designee.
- F. Equipment and furniture including, but not limited to, pianos, tables, chairs, podiums, public address (PA) systems, and audio/video equipment shall not be used or moved without the approval of the building principal or designee, and without the knowledge of the Event Services department. - G. District-owned office and school supplies shall not be used.
- H. The site shall report any damage incurred, missing equipment, additional cleanup required, or other related or similar costs to the Event Services department no later than the end of the following business day after the event. Event Services will invoice the appropriate individual or group for the additional costs of the facility use.
- I. A temporary key and/or badges may be issued to partner organization designees to assist with providing building access during specified dates and times. Keys/badges are not to be shared and are to remain in the possession of the assigned individual.
- J. Padlock keys to access locked fields will be issued upon completion of a Padlock Key Receipt acknowledgement and payment of a refundable key deposit. Keys must be returned by the date specified on the Padlock Key Receipt acknowledgement, but not later than 10 days after the last scheduled field usage, or the key deposit shall be subject to forfeiture and any costs to change locks for that key number may be assessed.
- K. Rental of portable restroom units is required with all playfield Facility Use Agreements. Non-refundable restroom rental fees will be added to the Facility Use Agreement and included in the invoice. Portable restroom unit rental fees will be charged per day per field to utilize the fields during the Facility Use Agreement dates. The number and type of unit will be determined by the Event Services department. Full payment of the restroom rental fees including a refundable portable restroom key deposit is due upon execution and signing of the Facility Use Agreement.
- L. If a concern regarding the appropriate use of district facilities arises, authorized district employees have authority to order any person, persons, or groups to leave or vacate all or any portion of the school facility or grounds. Concerns regarding the use of district facilities may also be reported to the Campus Safety department.
- M. Religious organizations may rent school facilities for religious services. Facility usage for religious organizations is intended as temporary use for groups that are seeking their own permanent quarters, or groups that temporarily have no quarters. Rental charges will be assessed in accordance with the board approved fee schedule for Class III – Commercial Enterprises. High schools will not be available on an ongoing basis due to the priority for district activities.
- N. If a permit has been issued to a group for use of district facilities and the facility is later determined to be unavailable, Event Services shall provide a timely notice of cancellation to the applicant, including the reason for the cancellation.
- O. The maximum number of people permitted in any school facility shall be restricted as indicated by the appropriate fire marshal.
- P. The district reserves the right to require police supervision, security, or fire protection at any event whenever the building principal, and/or the superintendent/designee deems such protection necessary. The cost for this additional supervision shall be borne by the user and is due 14 days prior to the event.
- Q. Organizations renting school district facilities are required (at their expense) to include

the following statement in all advertising associated with the event: "This is not a Spokane Public School District sanctioned or sponsored event."

- R. Students and employees have the same rights and must comply with the same procedures for the use of district facilities as any citizen. Students must have Spokane Public Schools designated staff member or parent/guardian supervision when using district facilities.
- S. It is the sole responsibility of the users of district property to comply with federal, state, and municipal laws and to obtain any permits necessary to conduct a particular activity including, but not limited to, zoning permits and approvals.

## II. Fees and Payment

Cancellations fifteen (15) calendar days or more prior to first usage shall result in a refund of the deposit and any balance paid.

## III. Classification and Scheduling

Public school facilities are owned and operated by and for the community. The public is encouraged to use school facilities but will be expected to reimburse the district for such

use to ensure that funds intended for education are not used for other purposes. Any requested use of the school facility will be classified in accordance with the following guidelines, and rental fees will be charged accordingly (unless waived by the superintendent). The superintendent/designee shall make the final decision regarding classification of proposed uses.

### D. Sanitation and Food Permits

District cafeterias and kitchens are considered public eating-places; as such, compliance with applicable health department rules and regulations is required. Organizations shall observe the following rules when using school district cafeterias and kitchens:

serving food when the public is allowed to attend, shall be responsible for contacting the Spokane Regional Health District (509-324-1560) and arranging for the appropriate permit. If a Spokane Public Schools Nutrition Services staff member is paid to supervise the foods served at the event, a permit may not be required. However, the group should still comply with basic food sanitation procedures to ensure the safety of participants.

The Spokane Regional Health District provides a list of approved low-risk foods. For convenience, a copy of the most recent SRHD low-risk foods list that we are aware of can be provided by the Nutrition Services department, of the Spokane Public School District. The Spokane Public School District does not, however, warrant that the list is up to date and complete, and it is the responsibility of the group or organization serving food products to make sure they have the most current SRHD low-risk food list.

#### G. School Playgrounds and Playfields

School playgrounds and playfields are intended for the use of students during and after school and under the supervision of the principal. The use of playgrounds and playfields by responsible organized groups for recreational purposes is encouraged at times when school is not in session, provided it does not damage the playground or interfere with the school program(s) or Joint-Use Partner activities. Organizations holding Joint Use Agreements with the school district, such as the City Department of Parks and Recreation, have priority usage for these facilities.

Playgrounds and playfields are available for use when school is not in session, on an as-available basis. Parties interested in using outdoor district facilities should contact the City of Spokane Department of Parks and Recreation to schedule elementary school playfields or the school district's Event Services for middle and high school playfields.

1. Golf practice, flying motorized model airplanes, operating vehicles, or exercising animals are prohibited on school grounds. Activities must be limited to conform to the available space and the basic intent of the use of that area.
2. For reasons of security, use of school playgrounds or playfields by individuals or groups is not authorized during the hours of darkness.
3. Private vehicles are not permitted on any school grounds except in designated driveways and parking lots. Such vehicles as may legally be permitted must be operated with extreme caution and their speed shall not exceed five (5) miles per hour on any school property.

#### H. Liability

Any user of school district property shall sign a statement that indemnifies and holds harmless the district from and against all insurable losses, including claims, demands, payments, suits, actions, recoveries, and judgments of every nature and description brought and recovered against the district by reason of any act or omission of the user.
