

Distribution of Materials

The board recognizes that valuable social, recreational, and educational opportunities are available to families and students through nonprofit organizations and governmental entities providing services for students. The district may choose to make information available to students and families about these programs, provided that doing so does not interfere with the educational process.

Nonprofit organizations or governmental entities wishing to distribute informational material must first submit to the superintendent or a designee, a copy of the material and a statement of the educational value the program provides to students.
