Distribution of Materials

The board recognizes that nonprofit organizations may want to distribute informational materials in the school district that are non-curricular but that have educational value for students or parents and guardians of students.

Any group wishing to distribute informational material must first submit, to the superintendent or a designee, a copy of the material and a statement of the educational value the program provides to students.

Informational materials to be distributed must also be approved by the building principal and meet certain standards of content and delivery prior to distribution. The primary purpose of the content standards is to prevent the exploitation of students by individuals or groups and to ensure relevance to the primary mission of the district in educating children.

The superintendent shall establish procedures to implement this policy.
